PROFESSIONAL SUMMARY

I am a 4th-year IT student at PHINMA University of Pangasinan, currently seeking an internship opportunity where I can apply my skills, gain hands-on experience, and adapt to the evolving demands of the IT industry. I am committed to continuous learning, professional growth, and contributing effectively to innovative projects. During my work immersion, I applied my IT and digital editing skills while gaining exposure to real-world industry practices. I handled content-related tasks, assisted with technical needs, and strengthened my problem-solving and technical abilities. This experience inspired me to pursue a career in technology with confidence and purpose.

EXPERIENCE

2023

Work Immersion, Municipality of Sta Maria

During my work immersion, I applied my skills in IT and digital editing innovative projects. While learning real-world industry practices. I handled content tasks, assisted with technical needs, and strengthened my problem-solving and tech abilities. This experience inspired me to pursue a future in technology with confidence and purpose.

RECENT PROJECT

2026 — Oct 2026

Thesis - Tapt - A CLOUD-SYNCHRONIZED NFC SYSTEM FOR DECENTRALIZED CLASSROOM ATTENDANCE TRACKING AT JGMNHS

Tapt is an offline-first, cloud-synchronized NFC attendance platform for JGMNHS featuring Teacher-Side Photo Validation and automated DepEd SF2 report generation. Replacing manual logbooks cuts per-student scanning time from 10–15 seconds to 1–2 seconds, reclaiming 6–8 minutes of instructional time per class. Additionally, Tapt slashes monthly SF2 compilation from 2–3 hours to under 1 minute, drops proxy attendance below 0.5%, and achieves 99.9% data logging accuracy.

2023 — 2023

Team Project - E-ATS GAME APP

May 2026 — Jun 2026

Solo project - Sanitary Permit and Health Certificate Management System

The **Sanitary Permit and Health Certificate Management System** is significantly more efficient than the traditional manual process, delivering a **75–99% improvement in processing speed**, an **85% reduction in error rate**, a **90% reduction in operational costs**, and a **60–70% reduction in staff workload**, making it a faster, more accurate, and cost-effective solution for the Municipality of Tayug Health Office.

Mar 2026 — Mar 2026

Otaku Store - Solo work

An online shop built for anime fans — a place for otaku to browse and buy anime figures and manga without digging through five different sketchy sites.

Sept 2024 — Sept 2024

Team project - PUCU Event Calendar

A school event calendar. Organisations have their own dashboard, admins manage users, and events show as upcoming, pending or recently finished.

Sept 2024 — Sept 2024

Group Project - ITE 393 Campus App

A campus companion: sign-in, student profiles, a floor-by-floor building map, events, courses and modules.
